

COVID-19 Vaccine Provider Webinar, April 6th Highlights

Read below for topics covered or click links to view the video section for that topic.

COVID-19 Vaccine Clinical Updates

- The FDA has announced 2 revisions regarding the number of doses per vial for the Moderna COVID-19 vaccine. First, it revised the number of doses available in current Moderna vials to be 11, with a range of 10-11 doses. The second revision authorizes the availability of an additional multi-dose vial in which each vial contains a maximum of 15 doses, with a range of 13-15 doses.
- Vaccination record cards are an important part of the process, especially for 2nd doses. Encourage your patients to keep their vaccination cards (or take a photo!) to confirm their vaccinations. If a patient loses their card, they should contact the site where they received their first dose vaccination.

VAOS System Enhancement: Allocation Request Unfilled Notifications

- If you submit an Allocation Request and don't receive an allocation, you will now be notified via email the week after you submit your request. Continue to request allocations each week. This informs allocation decisions but does not guarantee an allocation for that week.

VAOS System Enhancement: Transfer Requests

- The CDC Redistribution Form for transfers must be signed and dated by the CMO and CEO. If a form is denied, then please start a new transfer request.

ImmTrac2 Rapid Entry Update

- Use ImmTrac2 Rapid Entry feature for existing clients (who are Disaster Consented or Disaster Unconsented) or new Disaster Unconsented clients. You will not be able to enter a patient into ImmTrac2 through Rapid Entry if they are a new Disaster Consented client.

Provider Resources:

- [COVID-19 Vaccine Resources \(training materials, videos\)](#)

- DSHS COVID-19 Vaccine Provider hotline: (877) 835-7750, 8 a.m. to 5 p.m., Monday through Friday; Email: COVID19VacEnroll@dshs.texas.gov

Session Live Q&A:

- How long after reporting doses administered into both ImmTrac2 and TDEM will it reflect in the VAOS system?
- Do we have to wait until we receive new Moderna vials to begin pulling 11 doses?
- How can we be sure that we will have enough 2nd doses?
- Is the minimum age for the Moderna vaccine still 18 years old?
- Can we convert doses we received from a transfer into first or second doses?
